

# VDE E-Race 2025

## Cost and Manufacturing Event - Realcase

This year, we ask you for a presentation concerning the following scenario: An essential team member (e.g. lead engineer, test driver or chief mechanic) sustains an injury just days before an important race. The remaining team members are all competent, but there's no one with the same level of expertise in that specific critical area of the project. Show how you manage the immediate absence of this key member i.e. handling the responsibilities, without sacrificing performance. Please be transparent about the adjustments you would make to account for the needed changes and their impact.

Your presentation should meet the following requirements:

- Max. 10 min.
- Max. 2 flip chart pages, (prepared or unprepared, maximum size: 98 cm x 67.5 cm)
- No handouts, no electronic devices
